Views of Southern Laws, Life, and Hospitality Written in Charleston, S. C., by F. C. Adams.

The above work is a delineation of the scenes and incidents connected with the imprisonment, in 1852 of Manuel Pereira, steward of the British brig Jan son, in the jail of Charleston, S. C.

The following notice of this work is copied from the National Eru of February 17:

"The above is the title of a work now in press founded upon that infamous statute of South Carolina, by which her citizens claim a right to imprison colorea sciences, of all nations, and even those cast upon their shores in distress. We have perused the book in advance of its publication, and find that it gives a life like picture of Pereira, the vessel in which he sailed the storms she encountered, and her wrecked condition when brought into the port of Charleston, S. C.; to gether with the imprisonment of Pereira, several seamen belonging to the New Eugland States, and twe French scamen; the prison regimen, character of the Charleston police, and the mendacity of certain officials, who make the law a medium of peculation. The work, is replete with incidents of Southern life and character, pointing Southerners to the things that call for correction at their own hands, with a force that cannot be mistaken. The work is written by one who has taken a prominent part in the safairs of the South. cannot be mistaken. The work is written by one who has taken a prominent part in the affairs of the South, and cannot fail to interest alike the general reader, commercial man, and philanthropist."

"ROLLO ON THE ATLANTIC."

"ROLLO ON THE ATLANTIC,"

DEAUTIFULLY illustrated with original designs.

By Jacob Abbott.

"Rollo on the Atlantic" is the first book of a series to be published under the general title of Rollo's Tour in Europe.

Extract from the Preface:

"The books are intended to be books of instruction, rather than of mere amusement; and, in perusing them, the reader may feel assured that all the information which they contain, not only in respect to the countries visited, and to the customs, usages, and modes of life that are described, but also in regard to the general character of the incidents and adventures that the young travellers meet with, is in most strict accordance with fact. The main design of the narrative is thus the communication of useful knowledge; and everything which they contain, except what is strictly personal, in relation to the actors in the story, may be depended upon as exactly and scrupulously true."

ON or before the 1st of January, 1854, the Executive Committee of the New York State Temperance Society will issue the first number of a Monthly Temperance Journal, under the title of "THE PROUTE ITS SUPPLY STATES

The undersigned, having been appointed sole Agent in the United States for the sale of Charles Frodsham's Improved Timekeepers, would respectfully call public attention to his extensive and valuable stock of Compensated Chronometer Watches, made by Charles Frodsham, and styled his "New Series." In the Watches of the new series, Mr. Frodsham has succeeded—by a more perfect method of compensation, a more correct adjustment in isochronism, and an entirely new and pseuliar construction of the train, by which more power is obtained without increase of size—in producing timekeepers of wonderful and unrivalled accuracy. The great importance of the improved Watches is a perfect regularity of time, under every variety of cimate, motion, and position. So perfect are the adjustments, that the most violent exercise—such as horseback riding, jumping, &c—produces on them no sensible effect. They are therefore peculiarly adapted to railroad purposes.

The scientific French critic, Mons. Borsendorf, in his review of the Great London Exhibition of 1851, styles the contribution of Mr. Charles Fredsham as "bearing the stamp of peculiar merit, and as being the flower of the English school."

The British Government have awarded Messrs. Arnold and Charles Fredsham the sum of £3,170, for the exceptlence of the principle of their timekeepers.
One of Mr. Frodsham's correspondents writes as follows:

London, April 26, 1852. nais, or to that of an ordinary duodecimo volume of 150 pages.

Its Object.—To advocate the Cause of Temperance generally, and especially the Legislative Prohibition of the Traffic in Intoxicating Beverages, to prepare the minds of the masses for such Prohibition, by showing its expediency and Necessity, and to secure, by all the influence it may legitimately exert, the vigorous enforcement of Prohibitory Laws when obtained.

vigorous enforcement of Prohibitory Laws when obtained.

Its Firld.—Dealing with general principles, with arguments alike applicable to every community where the traffic exists and with facts illustrative of these arguments and principles, the paper will be National in its spirit, in its scope, in its purpose, and, we trust, it will be National in its circulation and influence. Such is our aim and expectation. We desire to see the Principle of Prohibition established in State after State, till it becomes the recognised policy of the Nation. It is our ambition to bear a part in this great work, and to this end The Prohibitionist is established, not as the organ of a society merely, but of a Gerat Reformatory Moyember.

Its Necessity.—The existing Temperance Journals have little, if any, circulation outside of the Temperance Ranks. Their price almost necessarily restricts them to the friends of the cause. This Prohibitions is designed for circulation (instead of tracts) among the indifferent and the hostile. For this purpose it is put at a price so low as to enable the friends of Temperance in every school district, by combined action and at an inconsiderable expense, to place a copy in each family that will consent to receive it.

Its Price.—One copy for one year - \$0.50 London, April 26, 1862.

Sir: I have much pleasure in giving an account of the Gold Compensation Lever Watch No. 3,325, you have made for me, and in which I expressly stipulated that it should maintain a uniform rate of going under every variety of motion and climate. This it has done in a most remarkable manner; its rate of going for the first six months was five seconds per month, and in the next six months it changed its rate a little faster, viz: eight seconds per month, and at the end of 365 days it was found to be fast of Greenwich mean time one minute and fifteen seconds. Though I was not led by any previous promise to expect such performance, yet I believe it is only the usual character of your improved watches, which you term your "new series."

Sir: I herewith give you an account of the remarkable performance of the watch I purchased of you, made by Charles Frodsham, No. 7,014. Its total variation for 17 months, by weekly observations, was but one minute and fifty-five seconds.

Yours, respectfully, Bitlings Briggs.

THE NEW YORK MUSICAL REVIEW CHORAL ADVOCATE

CHORAL ADVOCATE

Is the cheapest and best Musical Paper in the world. This Journal, which has heretofore been published monthly, commences its fifth year in January next, and thenceforward it will be published every two weeks—on every other Thursday; thereby giving more than twice as much matter, without any increase in price. Each number contains sixteen and holyday pieces, and, in short, every variety of music adapted to purposes of religious worship, to public occasions, and to the home circle; all of which will be of a practical character, and such as can be sing by persons of ordinary musical attainments. In the editorial department of the Review are engaged (in addition to Mr Cady, the former editor) gentlemen of the highest talent and ripest musical experience, among whom are George F. Root, William B. Bradbury, Thomas Hastings, and Lowell Mason; and its circle of correspondence, home and foreign, is complete. The Review will also be a regular medium for the announcement of new musical publications by all the leading publishing houses in the form of Rleakwood and the four Reviews

Correct and valuable Market Reports.

The Markets will be carefully reported, giving the actual transactions which take place from week to wock, in Grain, Provisions, Cattle, &c.; thus keeping our readers constantly and reliably advised as to their interests. During the past year, the knowledge obtained from these Market Reports alone has saved our readers thousands of dollars, by informing them of the best time to sell or purchase.

Such a Paper is demanded by the Farming Community.

The publishers confidently bolieve that the agriculturists of this country are becoming too much awake to the demands of their own calling to be longer satisfied with the slow monthly issues of a paper professedly devoted to their interests, or to trust alone to the irrespousible extracts in a "farmer's column," so popular just new in papers chiefly devoted to business, politics, or literature; and they look for the united support of all the intelligent farmers of this country in their continued effort to furnish a weekly paper of a high and reliable character, which shall be progressive, and at the same time cautious and conservative in all its teachings.

Essentially an Agricultural Paper.

The Agriculturist will not depart from its legitimate sphere to eatch popular favor by lumbering up its pages, with the silly, fettitions literature, and light, miscellaneous matter of the day; it has a high or aim; and a small part only of its space will be devoted to matters not immediately pertaining to the great husiness of Agriculture. The household as well as the out-door work of the farm will receive

An Independent Journal.

The American Agriculturist stands upon its own merits; and the truthfolness, seal, and ability, which it brings to the support of the interests of the farmer. It is untrammeled by any collateral business connections whatever; nor is it the organ of any colluce, or the puffing machine of any man or thing. Thoroughly independent in all points, its ample pages are studiously given alone to the support and improvement of the great agricultural class.

Editorial Department.

The American Agriculturist is under the editorial supervision of Mr. A. B. Allen, its principal editor for the past ten years, and Mr. Orange Judd, A. M., a thoroughly practical farmer and agricultural chemist.

They will be assisted by Prof. Nash, who has bee for a long time one of the most successful farmers of New England, and is now Agricultural Professor of Amberst College; Rev. Wm. Clift, widely known as a pleasing and instructive writes on gardening and other departments of practical agriculture, and, in addition to these, a number of other eminent agri-

All the editors are mon practically experienced in their profession, each of whom can handle the Plow as well as the Pen.
